ABOUT US

Governance Automation Solution (GA Solution) is a leading provider of turnkey digital governance and automation solutions in Nepal. Founded by a team of seasoned techno-managers, It is at the forefront of the country's public sector digital transformation.

We specialize in developing smart and scalable systems for central, provincial, and local governments, as well as for universities and the private sector. With a deep understanding of government processes, we design solutions from the ground up—not just in labs, but also in the field, in close collaboration with end users.

Our solutions have been implemented across central and provincial governments, and in a majority of Nepal's municipalities, delivering measurable impact in areas such as governance, public administration, and digital services (e-services). We have also successfully delivered digital solutions for the private sector.

GA Solution is dedicated to building technology that is user-centric, secure, and aligned with national digital priorities.

WHAT SETS US APART

- Specialized in digital governance & healthcare automation
- Proven presence in government offices across all 7 provinces.
- Over 95% of solutions built for government offices
- Proven presence in 70%+ of Nepal's municipalities
- Bridges the gap between field needs and technology
- Delivers world-class, scalable, and secure systems
- Follows international standards and best practices

COMPANY
VISION & MISSION

We are committed to offering unrivaled business automation consultation and turnkey solutions in addition to a unique technical support to our valuable clients. GA Solutions is powered by highly skilled professionals of professors, consultants, engineers, developers, and executives equipped with the latest managerial and IT tools and works round the–clock to assure the timely delivery of your applications with the highest quality.

Vision

Our vision is to offer expert engineering, management, and consulting services, striving to be the top choice for our clients.

Mission

Our mission is to develop smart solutions and deliver outstanding service across our professional fields, while upholding legal standards, ethical codes, and integrity.

Goal

We optimize resources through ICT and deliver citizen–focused services, supporting the Digital Nepal Framework and contributing to the vision of a digitally empowered nation.

CORE VALUES

- **Integrity** – We operate with transparency and ethics
- **Innovation** – We think beyond boundaries
- **Client Focus** – We prioritize real-world needs
- **Excellence** – We deliver high quality, every time
- **Sustainability** – We build for long-term value

OUR
SERVICES

Our Software company provides a wide range of services to help businesses streamline their operations and improve their overall efficiency. We specialize in developing custom software solutions tailored to meet the unique needs of our clients. Our team of experienced software developers works closely with clients to understand their business requirements and deliver software solutions that exceed their expectations.

SOFTWARE DEVELOPMENT

We specialize in agile software development, delivering high-quality, secure, and scalable solutions. From requirement analysis to deployment, our expert team works closely with clients, ensuring fast delivery, thorough testing, and ongoing support.

WEB DEVELOPMENT

We provide high-quality web development services, creating responsive and secure websites using the latest technologies. Our team works closely with clients from planning to deployment and offers ongoing support and maintenance.
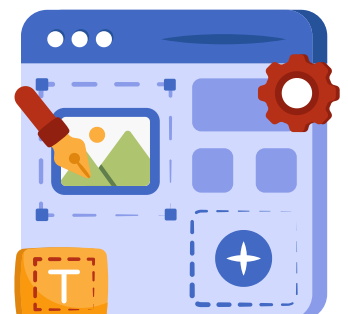

MOBILE APP DEVELOPMENT

We develop high-quality, user-friendly mobile apps using the latest technologies. Our team handles everything from planning to deployment and provides ongoing support to ensure optimal performance.

WEB DESIGN

We offer professional web design services, creating modern, responsive, and user-friendly designs that reflect your brand. Our team ensures a smooth process from concept to launch, with ongoing support as needed.

OUR
PRODUCTS

1 Lumbini Province PIS System

The system manages employee records, payroll, assets, and document filing from appointment to retirement, with reporting features.

2 Easy industry

Improves efficiency and accuracy in license registration and renewal, saving time and ensuring regulatory compliance.

3 Information Bank

A centralized system that delivers real-time notices from various ministries, commissions, and provincial OCMCs in one unified platform.

4 CMIS (Communication Media Management Information System)

This application manages the inventory of provincial media houses and facilitates online press card applications, including processing and printing.

5 CMRS(Communication Media Registration System)

Automates media house registration, renewal, detail updates, and operational terms in both Nepali and English.

6 ELegislation System

It is a system for automating parliamentary process such as tracking of bills, reading paper generation etc

7 Pradesh Sabha Profile

A system that provides detailed information on provincial assemblies, including members, meetings, and legislative activities.

8 Palika Mobile App

A municipal app delivering news, events, alerts, and department info for easy public access.

9 Palika Infobox System

A G2C platform for municipalities, offering transparent access to services, like tourist sites, health, local info, and citizen charters for public convenience.

10 Digital Paper System

It is a trusted paperless system that streamlines municipal services like certificates, verifications, and recommendations across Nepal.

11 Nepal Police Samayojan System

A system that streamlines Nepal Police transfers, offering real-time data, record-keeping, and improved interdepartmental coordination.

12 Nepal Police Ramana System

Centralized system for Nepal Police to manage employee lifecycle, payroll, assets, documents, and reporting.

OUR
PRODUCTS

13 Palika Education Loan System

A user-friendly, multilingual system that securely manages education loan records, provides alerts and reports, and is ideal for municipalities.

14 Nagar Hospital Accounting System

An offline system for municipal hospitals that automates accounting, ensuring transparent and efficient financial management.

15 Rental Managment System

A system that helps landlords track rent, handle partial payments and fees, automate lease renewals, and send payment reminders.

16 Building Permit Digitization System

Digitizes and uploads documents to a central server for easy access and use across systems.

17 IPAYROLL

Streamlines payroll for businesses by automating earnings, taxes, deductions, pay stubs, and payments

18 ECabinet

Software that automates sharing of executive meeting details, decisions, and documents to save time and resources.

19 Lumbini Technical University Fee Management System

The Fee Management System is a simple and reliable software designed to efficiently manage, track, and record fee payments and financial transactions.

20 Lumbini Technical University Website Management System (LTU-WMS)

It is a user-friendly digital platform for publishing LTU's information, notices, and updates, ensuring accurate and timely dissemination.

21 Hospital Management Information System

A system that helps hospitals manage all healthcare data and processes, improving patient care and operations.

22 Lab Management System

A system that streamlines lab operations by managing test requests, samples, reports, and inventory efficiently.

23 Incident Reporting System

A system for recording, managing, and tracking incidents in real time, ensuring timely response, accountability, and improved safety.

24 Document Management System

DMS is a software that helps organizations manage all types of documents efficiently.

OUR HAPPY
CLIENTS

Our clients include government agencies and municipalities seeking advanced software solutions such as government applications, municipal management systems, province–level software development, and custom mobile apps. We also provide expert web design services to enhance digital presence and ensure seamless user experiences across platforms. Our tailored solutions help public sector organizations improve efficiency, transparency, and service delivery.

ORGANIZATION & STAFFING

1. SHIVASHWOR JOSHI *(Senior Developer)*

He is a full stack senior developer with leading role on various projects with more than **20 years of experience** in developing software systems for local governments. Specialized in Revenue (serving with the 400+Happy Clients), expenditure, and accounting system development. Expert in Data migration, Database design, and System integration. Proven track record of successfully delivering large-scale solutions for government and security agencies.Key projects include PIS (Personnel Information System) and PMIS (Police Management Information System), PPIS(Prahari Kitabkhana.

2. ANUPAM KOIRALA *(Senior Developer)*

Anupam Koirala is an experienced Project Manager with expertise in planning, coordination, and execution of large-scale government and enterprise software initiatives. He has successfully led multidisciplinary teams to deliver nationwide systems in revenue, expenditure, and accounting domains. His strategic leadership and technical insight ensure projects are completed efficiently, with quality and lasting impact.

3. SANDESH MAHARJAN *(Senior Developer)*

Sandesh Marjan is a full-Stack Developer and Server Expert with more than **9 years of experience** in developing and managing enterprise-level software systems. He specializes in full-stack development, server management, and delivering secure, scalable, and high performance solutions for government and organisational projects. He has successfully delivered various enterprise-level systems like Taxation (Revenue's System) ensuring efficiency, reliability, and seamless operations.

4. RABINDRA KUNWAR *(Senior Developer)*

Rabindra Kunwar is a Full-Stack Programmer with over **9 years of experience** in developing enterprise and government software systems. He specializes in revenue and ERP system development and delivers scalable, high-performance solutions for government and organizational projects. He has successfully implemented various enterprise-level systems, including Taxation (Revenue) systems, ensuring efficiency, reliability, and seamless operations.

5. HIM PRASAD KAFLE *(Senior Developer)*

Him Prasad Kafle is a Full-Stack Programmer with over **7 years of experience** in developing enterprise and government software systems. He specializes in revenue and ERP system development and delivers scalable, high-performance solutions for government and organizational projects. He has successfully implemented various enterprise-level systems, including Taxation (Revenue) systems, ensuring efficiency, reliability, and seamless operations.

6. SAMUNDRA THAPA *(Senior Developer)*

Samundra Thapa is a Senior Full-Stack Developer with over **10 years of experience** in developing enterprise-level software systems for government, nongovernment and local authorities. He has played a key role in the design, development, and deployment of major systems, including PIS (Nijamati Kitabkhana's Personal Information System), PMIS (Police Management System), provincial government applications, and various local government software solutions. His expertise includes full-stack development, system architecture, and delivering scalable, secure, and high-performance software for large-scale government and non-government operations.

ORGANIZATION & STAFFING

7. SUJAN MAHARJAN *(Senior Developer)*

Sujan Maharjan is a Full-Stack Programmer and Mobile Application Specialist with over *7 years of experience*. He specializes in developing Android and iOS mobile applications as well as enterprise web applications. He has successfully delivered numerous mobile and web solutions for local governments and organizations, ensuring scalability, performance, and seamless user experience.

8. MADAN KUMAR *(Programmer)*

Front-End Developer with *6+ years' experience* in UI/UX design and web application development. Skilled in HTML, CSS, JavaScript, Bootstrap, and API integration, delivering responsive, high-performance interfaces for enterprise and government projects.

9. PUJAN BASHYAL *(Developer)*

Senior developer with *3+ years' experience* in full-stack development, database management, and cloud applications. Experienced in delivering scalable, secure systems and supporting technical training.

10. ROSHAN BHANDARI *(Database Designer)*

Database Designer and Full-Stack Developer with *8+ years' experience* in database design, optimization, and web application development. Skilled in Laravel, Vue.js, and MySQL, delivering secure, scalable systems for government and enterprise projects.

11. SUSHIL NEPAL *(Database Designer)*

Senior Database Designer with *15+ years' experience* in database architecture, optimization, and migration for government, healthcare, and education projects. Expert in PostgreSQL, SQL Server, Oracle, and performance tuning.

12. SANDEEP SHRESTHA *(Senior Network Engineer)*

Network Engineer with *11+ years' experience* in network design, infrastructure management, and security. Skilled in maintaining enterprise and government systems for reliability and operational efficiency.

13. KISHOR LAMICHHANE *(Senior Network Engineer)*

Network Engineer with *9+ years' experience* in network design, infrastructure management, and security. Skilled in maintaining enterprise systems for government and private sectors, ensuring reliability and operational continuity.

14. KRISHNA KARKI *(DevOps)*

DevOps Expert with *6+ years' experience* in CI/CD, cloud management, containerization, and DevSecOps. Skilled in delivering secure, scalable, and high-performance systems for government and enterprise projects.

ORGANIZATION &
STAFFING

15. SANGITA SHRESTHA *(Senior Designer)*

System and Graphic Designer with 7*+ years' experience* in UI/UX design for enterprise software. Skilled in creating intuitive, user-friendly interfaces that enhance functionality and engagement.

16. SALINA SHRESTHA *(UI/UX)*

Salina Shrestha is a UI/UX Designer with *5+ years of experience* creating user-friendly web and mobile applications. Skilled in Figma, Adobe XD, Photoshop, and Illustrator, she has contributed to enterprise solutions in finance, healthcare, and governance. She combines creativity with functionality, user research, and collaboration to deliver designs that improve usability and efficiency.

17. RAJAN KUSI *(QA)*

Rajan Kusi is a highly skilled quality Assurance expert with *4 years of experience* toward testing deployment for the highly enterprise government and non government application.

18. JALAUDDIN MANSUR *(QA)*

Senior developer and QA expert with experience in software development, testing, and deployment for enterprise applications. Skilled in risk assessment, compliance, and training, ensuring reliable, high-quality solutions.

19. JANAK KUMAR BARAL *(Chartered Accountant)*

CA with *20+ years' experience* in accounting, auditing, taxation, and financial compliance. Expert in budgeting, cash flow, forecasting, and risk assessment, providing strategic financial guidance for sustainable growth.

20. MAHESH POKHREL *(Senior Business Expert)*

Mahesh Pokhrel is a Business Expert with *10+ years of experience* driving organizational growth and strategic initiatives, specializing in local-level revenue management, taxation, and accounting systems.

21. MOHAN ADHIKARI *(Business Expert)*

Mohan Adhikari is Business Expert with *10+ years of experience* driving organizational growth and strategic initiatives, specializing in local-level revenue management, taxation, and accounting systems
